Little Boys' and Little Girls' Own Circus.

John Robinson, for the delight of all the little boys and girls, that come to see his big shows, has organized a juvenile circus and trained animal performance where can be seen two of the funniest little twin baby elephants, who dance and walk the tight rope, walk on stilts, stand on their heads, and a whole lot of comical dogs that play clown and have a circus all by themselves, and laugh and shout like real little boys and girls, and then the droll and quizzical capers of the monkeys who talk and holler and make strange faces at everybody, and everybody likes to look at the monkeys, and they know it as well as the monkeys, and they know it as well as you do, and go through all their funny tricks just to please the children. SCROFULA: A RE you aware that in your blood the taint of scrofula has a prominent place? This is true of every one. It is liable at any time, on the slightest provocation, to develop itself in some insidious disease. Consumption and many other diseases are outgrowths of this impurity of the blood. MESSRS. C. I. HOOD & Co.: Gentlemen—

* * My youngest son has always been troubled with Scrofulous Humor; sores in his head discharging from his ears, and a running sore on the back of his ear for two years; his eyelids would fester and ulcerate, discharging so that I was obliged to wash them open every morning, his eyelashes nearly all coming out; he was exceedingly dainty, most of the time eating but two slight meals a day. We were unable to find anything that had the least effect upon him till last spring, 1876, we gave him two bottles of Hood's Sarsaparilla. His appetite improved at once. * The back of his ear healed up without a sear, and not a sore in his head since. Sincerely yours,

"We do not as a rule allow ourselves to use our editorial columns to speak of any remedy we advertise, but we feel warranted in saying a word for Hood's Sarsaparilla. Sarsaparilla has been known as a remedial agent for centuries and is recognized by all schools of practice as a valuable blood purifier. It is put up in forms of almost infinite variety, but Messis, Hood & Co., (Lowell, Mass.) who are thoroughly reliable pharmacists, have hit upon a remedy of unusual value. Certainly they have vouchers of cures which we know to be most extraordinary."—Editors Lowell Weekly Journal.
